

Artwork Best Practices

Posters are placed in two places: above the stage and in the hallway on route to the washrooms. The posters in the hallway are viewed close up and are well lit. The posters above the stage offer much better advertising, but are viewed from a distance and are poorly lit. Please:

1. Ensure all important information is high contrast.
2. Ensure type is large and bold enough for distance reading.
3. Consider bold colours, they work well.

Successful Artwork Examples:
